

Maximum Performance (MaP) of WaterSense® High-Efficiency Fixtures

Updated January 19, 2013

NOTE: Compiling this listing is a service of Gauley Associates, Ltd. and Koeller and Company. All of the fixtures on this list are reported as certified by an accredited laboratory to meet the requirements of the U.S. EPA WaterSense specification for HETs. Information for this listing has been obtained from the WaterSense website and from test reports provided by recognized laboratories participating in the WaterSense program and believed to be entirely reliable. **NOTE: This listing is NOT the official list of the U.S. EPA's WaterSense Program. For a full description of WaterSense, go to: <http://www.epa.gov/watersense/>**

Important note: Some fixtures listed in this report are designated as 'NM' in the MaP Flush Performance Score column. All 'NM' fixtures are WaterSense certified ONLY to the maximum 350 grams (approx 12 oz.) of waste removal and have NOT BEEN INDEPENDENTLY TESTED in accordance with the MaP procedures currently in place. Therefore, there is NO ASSURANCE that these fixtures will perform at levels above 350 grams of waste removal.

DISCLAIMER: The information presented in this table has been gathered from sources deemed to be reliable (including the WaterSense Program). However, neither the authors nor the organizations posting this listing on their websites make any guarantee as to its correctness, accuracy, completeness, or current status. Readers are encouraged to perform their own research at the WaterSense website (noted above), manufacturer websites, and other sources.

Key: RF – Round-front toilet bowl

EL – Elongated-front toilet bowl

S - Special bowl design

ADA-Meets bowl-height requirements of Americans with Disabilities Act; does NOT imply that fixture meets any other ADA requirements.

WS - Compliance established by meeting the requirements of the U.S. EPA WaterSense specification for high-efficiency toilets; certified to WaterSense

SPS - Qualified to the Los Angeles Supplementary Purchase Specification for maximum adjustability

gpf - Gallons per Flush
